8th September 2020

CIRCULAR TO PARENTS

Dear Parent,

We have been working closely with our school bus provider and we are very pleased with their approach to how they will manage student bus services and the safety protocol for the recommencement of schools. Their pursuit of excellence in supporting our new academic plan and the rigorous safety protocols required to enhance student safety is first class. Their approach to the welfare of their employees and continuous investment in best practises matches ours at Our Own English High School, (Girls) Sharjah .

We have agreed to provide parents with a subsidy of 25% from the full rate published bus fees. This subsidy will only apply to those parents who have chosen the schools blended attendance model for the month of September and will be reviewed thereafter.

We have agreed with our school bus provider that any bus fees that you have already paid will be adjusted with this 25% subsidy with the balance offset for the following months' fees. This subsidy will only be available to parents who pay their bus fees in advance of the month of September and will not be retrospectively applied against outstanding or overdue fees.

Regards

ASMA GILANI
